

WORKSHOP 22

DATE: 20/09/2023

TIME: 8.30 AM

Lessons Learned from Delivering Governmentally Recognized Integrative Medicine Education: A Case of Cupping Therapy Course

105 minutes

Cupping therapy is one of the recognized complementary medicine therapies by Qatar Ministry of Public Health. Completing a cupping therapy course is mandatory for obtaining license to practice cupping therapy. A course of cupping therapy was developed by Tabibi Poly Clinic and approved by Ministry of Public Health in 2019. 106 participants were trained between (2020 -2023) from 26 countries. In this workshop, we will discuss steps of developing and approving the cupping therapy course, the tools that can evaluate the course, the simulation tools and experiences learned and accumulation knowledge from delivering this course.

1. (25 min) Developing and approving the cupping therapy course - Dr. Tamer Aboushanab
2. (35 min) Lessons learned from delivering the cupping therapy course - Dr. Zainab Almusleh
3. (15 min) The use of cupping therapy part-task simulation and hands on training - Dr. Zainab Almusleh, Dr. Tamer Aboushanab
4. (10 min) Using Cupping course evaluation tools - Dr. Zainab Almusleh, Dr. Tamer Aboushanab
5. (15 min) Questions & Answers - Dr. Zainab Almusleh, Dr. Tamer Aboushanab
