

**DATE: 20/09/2023**

**TIME: 11.00 AM**

## **WORKSHOP 4**

### **ONCOLOGY AND THEORETICAL-PRACTICAL EXPERIENCES OF ACUPUNCTURE APPLICATION**

90 minutes

*This seminar is based mainly on practice so as to provide participants with know-how that will serve them in the field of oncology.*

*The protocols of traditional Chinese medicine will be explained and the needle infusion modalities will be shown, which at cancer patients present particular characteristics of subjectivity with achievement of substantial improvement by placing them side by side with classical therapies; techniques that actually differ from acupuncture practiced for other modalities. Hence of great importance for acupuncture side-by-side with allopathic therapy.*

1. Explication of pathology integrative medicine
2. The rational view of therapy
3. Therapeutic protocols, theory and practice

### **Speakers**

**Franco Cracolici**

**Giuseppe Lupi**
