| Day | Title | Presenter Surname | Presenter Name |
|----------------------|---|------------------------|------------------|
| 21 SEPT | The osteopath-parent-son triad in the osteopathic manipulative treatment in the first two years of life - a qualitative study "grounded theory". | Accardi | Caterina |
| | Reasons and strategies to discuss complementary and integrative health (CIH) with clinicians. A web-based qualitative study of patient narratives in Finland | Aarva | Pauliina |
| | Associations between food-specific IgG antibodies and intestinal permeability biomarkers | Adorno Vita | Alexandra |
| | Evidence-based medicine analysis of Chinese herbal medicine prescribing for COVID-19 patients during the pandemic in the United States: A cross-sectional survey | Anderson | Belinda |
| | Capoeira and its health effects on physical and mental outcomes – a systematic review and meta- analysis | Anheyer | Dennis |
| | Do yoga and meditation moderate the relationship between negative life events and depressive symptoms? Analysis of a national cross-sectional survey of Australian women | Anheyer | Dennis |
| | Herbal medicine in the treatment of atopic dermatitis – systematic review and meta-analysis | Anheyer | Melanie |
| | Yoga and Mindfulness-based stress reduction versus waitlist control in the treatment of tension- type headache - a randomized controlled trial | Anheyer | Dennis |
| | Efficacy of oats for dyslipidemia: a systematic review and meta-analysis | Anqi | Li |
| | Integrative approach in metastatic intrahepatic cholangiocarcinoma: a case report | Andreazzoli | Francesca |
| | Integrative therapy in Multiple Myeloma: a case report | Andreazzoli | Francesca |
| | Integrative Hematology: state of the art | Andreazzoli | Francesca |
| | Clinical experience of Neuroacupuncture in Chronic Stroke Patients. The effect of acupuncture on jaw opening range and myofascial pain in patients with Temporo- | Armienti Avshalomov | Enrica David |
| | Mandibular Disorder (TMD): A case series | Bae | Ji Yong |
| e pr | Cognitive Behavioral Therapy for Migraine Headache: A Systematic Review and Meta-Analysis | | č |
| ffee | Key results from 25 years of basic research into homeopathic potentisation | Baumgartner | Stephan |
| Morning coffee break | A MEDITERRANEAN DIET INTERVENTION FOR YOUNG MEN WITH DEPRESSION: PATIENT EXPERIENCES, CHALLENGES AND BENEFITS (THE "AMMEND STUDY") | Bayes | Jessica |
| Morn | Therapeutic sensations are triggered by embodied attention and may have been the original inspiration for the meridian system of Traditional Chinese Medicine | Beissner | Florian |
| | Integrative and Complementary Practices in the management of chronic complications of Sickle Cell Diseases: a single center experience in Brazil | Benites | Bruno |
| | Improved survival and quality of life through an integrative and multidisciplinary oncological approach: retrospective analysis of a case series. | Berretta | Massimiliano |
| | Resources and facilitators of workplace well-being among healthcare professionals in a hospital setting – results of a qualitative study | Berschick | Julia |
| | HYPERTHERMIA AND NATURAL SUBSTANCES IN PRE-SURGERY OF BREAST CANCER: SAFE AND GOOD RESPONSE. | Bonucci | Massimo |
| | INTEGRATIVE TREATMENT IN METASTATIC ESOFAGEAL NEOPLASIA: COMPLETE ISTOLOGICAL DESAPPEARANCE OF PRIMITIVE AND METASTASTIC NEOPLASIA | Bonucci | Massimo |
| | A randomized, three arm, double blind, placebo controlled study of homeopathic treatment of children and youth with attention deficit hyperactivity disorder | Boon | Heather |
| | Phytotherapy and Anthroposophic medicine as a treatment option for asthma bronchiale: A systematic review | Braunwalder | Céline |
| | Self-regulation: a potential barrier to positive health behaviour change in psoriatic arthritis | Buckle | Helen |
| | The Immunological Dance of Foods | Burdette | Cheryl |
| | The feasibility of Propensity Score Matching method for comparative effectiveness assessment of Pediatric Tuina in a retrospective cohort study | Cai | Jianxiong |
| | Participatory evidence synthesis in multiple sclerosis and complementary therapies (PEMS) | Canella | Claudia |
| | Gender Diversity and Oncology Impact of Berberine (BBR) on metabolic disorders and its consequent role on breast cancer | Cavalli | Anton |
| | prevention and treatment. The safety and efficacy of herbal medicine for treatment of iron deficiency anemia in children : A | Cazzaniga | Massimilano |
| | systematic review and meta-analysis of Randomized Controlled Trials ROLE OF HOMEOPATHY IN AUTISM SPECTRUM DISORDERS | Chang | Gyu Tae Samir |
| | Acupuncture for fibromyalgia syndrome: Overview of systematic review and meta-analysis | Choi | Tae-Young |
| | Acupuncture for managing cancer-related fatigue in breast cancer patients: A systematic review and meta-analysis | Choi | Tae-Young |
| | Feasibility of the Emotional Freedom Technique for Post traumatic Stress Disorder: A Pilot Study | Choi | Yujin |
| | Quantitative Analysis of Craniofacial Asymmetry Correction using 3D Scanning and Acupuncture : Emerging Techniques in Soft and Hard Tissue remodeling - A Case series | Choi | Jiwon |
| | Pain-Related Evoked Potentials Predict Chronic Pain Status and Correlate with Interoceptive Awareness | Colgan | Dana Dharmakaya |
| | Neuroinflammation: from cancer to Long COVID. A phytotherapeutic approach to neuropsychiatric syndromes | Comandini | Alessandro |
| | Design and Evaluation of an Evidence-Based Practice Continuing Education Course for Canadian Naturopathic Doctors | Cooley | Kieran |
| | Dietary counselling plus omega-3 supplementation in the treatment of generalized anxiety | | 1 /1 |
| | disorder: Protocol for a randomized wait-list controlled pilot trial (the "EASe-GAD Trial") | Cooley | Kieran |

| Title | Presenter Surname | Presenter Name |
|--|---------------------|--------------------------|
| From advanced diagnosis to auricular neuromodulation in MCS | Cormano | Andrea |
| Research projects in Integrated Oncology in the Tuscany Health Authority USL Sud Est | Cracolici | Franco |
| Tai Chi and Qi Gong in the treatment of large cellular B-cell non-Hodgkin lymphoma: a clinical case report | Cusa | Chiara |
| The importance and management of physical trauma in patients with oncological diseases | Dario | Spinedi |
| A feasibility trial of Self-Acupuncture for patients with Migraines (SAM) | Davy | Catrina |
| A systematic review of self-acupuncture studies | Davy | Catrina |
| Traditional, Complementary, and Integrative Medicines: Tools for Pain Prevention and Control | de Oliveira | Célia Maria |
| Lifestyle and eating habits among fibromyalgia patients: results from a questionnaire study | Demori | Ilaria |
| Psychological effects of environmental characteristics, season, time of day and volume of exercise in breast cancer survivors trained in nature. | Di Blasio | Andrea |
| | Di Stefano | Mariella |
| Mapping public integrative oncology outpatient clinics in the region of Tuscany. Preliminary data Self-applied acupressure and online Qigong for chronic fatigue post COVID-19 – design and | Dietzel | Joanna |
| methods of a randomized controlled trial The in vitro antiproliferative activity of three selected Australian native plums against the MCF7 | Dissanayake | Indeewarie |
| breast adenocarcinoma Cell phone emitted electromagnetic radiation nullifies specific effects of homeopathically | - | |
| prepared tin (Stannum metallicum 30x) | Doesburg | Paul |
| "There is a way to work together": a qualitative study on complementary medicine therapists | Dubois | Julie |
| Our experience related to the level of 8-hydroxy-2'-deoxyguanosine in patients having increased levels of various tumor markers | Dunjic | Slobodan |
| Wearables Technology for promoting physical activity in middle-aged adults with chronic musculoskeletal pain | Eboreime | Kereaseen Oluwatoboloba |
| General medicine and homeopathy, integration as an opportunity for the Care Individualization | FAGONE | Giuseppe |
| THE EFFECTS PLACEBO/NOCEBO | FARAONE | Michelangelo |
| Lipid markers in cell membranes: a useful molecular based tool for evaluation of inflammatory status in breast cancer patients. The BreCaLip study. | Ferreri | Rosaria |
| Benefits of Mindfulness for Depression among Pregnant Women in Indonesia: Examining the Roles of Romantic and Prenatal Attachment | Fourianalistyawati | Endang |
| Endocrine therapy and weight gain after breast cancer diagnosis: is only the dietary approach effective? | Franceschini | Roberta |
| Final year medical students value Complementary and Integrative Medicine during their medical studies | Freeman | Jodie |
| Co-creation of an integrative oncology app - empowerment and engagement in practice | Fuller-Shavel | Nina |
| Profile of nursing professionals in the state of São Paulo-Brazil working in Integrative and | Tuner-Shaver | |
| Complementary Health Practices NEW CONTRIBUTIONS OF HOMEOPATHIC RESEARCH IN THE SARS-COV 2 PANDEMIC: THE | Fusco | Suzimar de Fátima Benato |
| BOTHROPS LANCEOLATUS. | Galli | EGIDIO |
| Postoperative Osteopathic Manipulative Treatment in Children with Esophageal Atresia: Potential Benefits on the Anthropometric Parameters | Galli | Matteo |
| Knee Osteoarthritis Clinical Practice Guidelines Should Pay More Attention to Identify and Report Research Priorities to Increase Research Value and Decrease Waste | Gao | Yicheng |
| Treatment of acute exacerbations of chronic obstructive pulmonary disease with acupuncture during hospitalization | Gavrieli | Sagi |
| Efficacy and Safety of External Therapies from Ayurveda, Traditional Chinese Medicine, and Anthroposophy for Sleep Quality: A Methodological Approach | Ghelman | Ricardo |
| Evidence Mapping on Integrative Practices for Cardiovascular Diseases | Ghelman | Ricardo |
